SUBJECT.—Import Licensing Policy in January-June 1952 for established importers.

No. 190-ITC(P.N.)/51.—The following decisions of the Government of India regarding the issue of licences to Established Importers for the import of goods falling under Part I (excluding items licensed by the Steel Import Controller), II, III, IV and V of the Import Trade Control Schedule for the licensing period January-June 1952, are hereby published for general information. In applying for licences in terms of this notification, all the definitions and rules of procedure laid down in the Handbook on Import Trade Control which is being simultaneously published, will be applicable unless any special exemption or modification is indicated in this notice itself.

2. For items shown in Appendix 'A(1)' the value of licences to be granted to established importers will be calculated as multiples of the import licence for the period January-June 1951 held by them, and for items shown in Appendix 'A(2)', licences will be granted as multiples of July-December 1951 licences. The only documents required to be produced by an established importer who wants to apply for a January-June 1952 licence on the basis of a January-June 1951/July-December 1951 licence previously granted to him, in addition to the treasury receipt for the application fee and Income-tax verification/Exemption number (*vide Handbook*), will be the following:—

- (a) The actual import licence for the period January-June 1951 in respect of Appendix 'A(1)', and the July-December 1951 licence in respect of Appendix 'A(2)'.

- (b) Two bills of entry or Customs Duty receipts with relevant documents to show that they have imported the article for which they are applying for a licence in two different financial years after 1945-46 including the financial year 1951-52.

3. Established importers, who for any reason did not get a licence in January-June 1951, July-December 1951 or who for any reason prefer to submit an independent application for a licence based on evidence of past imports rather than on the value of their January-June 1951 or July-December 1951 licence, may do so. The documentary evidence required from them will be the same as indicated in para. 5.

4. The statements at Appendix 'A(1)' and Appendix 'A(2)' will indicate the multiple of the January-June or July-December 1951 licence or the percentage of the selected years' import for which a licence will be given to eligible established importers for the period January-June 1952.

5. Appendix 'B' contains a list of items which will be licensed to established importers on production of original documents and not on the basis of any January-June 1951 or July-December 1951 licences held by them. The documentary evidence required to be produced by established importers for items included in Appendix 'B' will be the following:—

- (a) Either a valid quota certificate or the appropriate bills of entry or customs duty receipts with relevant documents to establish the value of their imports in any one financial year during the basic period *viz.*, 1945-46 to 1950-51, and
- (b) Two bills of entry or customs duty receipts with relevant documents to establish the fact that they have imported the article applied for in at least two financial years after 1945-46 and including the financial year 1951-52.

N.B.—(i) Imports made during the financial year 1951-52 will not be taken into consideration for purposes of calculation of quotas for January-June 1952 but will be taken into account for purposes of determining whether the established importer has effected imports in at least two financial years after 1945-46.

(ii) As trade with several enemy countries and enemy occupied countries was interrupted during the last war, it has been decided that the importers of goods from those countries will be permitted to have their quotas established on the basis of prewar imports during one of the three financial years before the break-out of the last war on production of the appropriate Bills of Entry.

(iii) Licences for miscellaneous hardware falling under Serial Number 275 of Part IV of the I.T.C. Schedule will be granted according to a special procedure and applicants should comply with the terms of the relevant Public Notices on the subject, which have been referred to in Appendix 'B'.

6. For grant of General licences, the basic year imports from the dollar area alone of articles falling under any particular S. No. or sub-S. No. of the I.T.C. Schedule for which an application has been made will be taken into account for purposes of calculation of quota.

Where articles are licensed for imports from soft currency area only, the basic year imports from all countries except Pakistan, Afghanistan, Portuguese and French possessions in India, Nepal, Tibet and Bhutan will be taken into account in calculating quotas for grant of soft currency licences.

In case of goods where both soft currency and general licences are issued the value of past imports from all sources other than the dollar area and Pakistan, Afghanistan, Portuguese and French possessions in India, Nepal, Tibet and Bhutan in the basic year will be taken into account in calculating the relevant quotas for imports from soft currency countries. The higher quota admissible for imports from soft currency area cannot be claimed against imports from the dollar area, nor can any applicant who has imported goods only from the soft currency area get a licence as an established importer from the dollar area.

7. Applications from established importers as such will not be considered for items not included in Appendix 'A(1)', Appendix 'A(2)' or Appendix 'B'. It is, however, intended to grant licences on the established importers principle in respect of certain other items and the appropriate procedure and quota for them will be announced at a later stage.

8. Entries in the remarks column in the Appendices against any particular item will indicate any special conditions or restrictions applicable to licences for it.

9. The last date for applying for licences as established importers for items included in Appendix 'A(1)' and Appendix 'A(2)' will be the end of April 1952 and the last date for applying for items included in Appendix 'B' will be the end of March 1952.

10. Licences to established importers will not be given if the value of the licence to which they are entitled according to the quota percentage fixed for licensing is below a certain minimum as indicated in the table below:—

Quota percentage of the articles as given in the Public Notice.	The limit upto which no quota licences will be granted if quota when calculated is less than	Minimum value of licence.
1. Over 20 %	Rs. 500	Minimum value licence for Rs. 1,000 will be granted (if quota found admissible lies between Rs. 500 and Rs. 1,000).
2. 20% or less	Rs. 250	Minimum value licence for Rs. 500 (if quota found admissible lies between Rs. 250 and Rs. 500).

- (a) For import of transformer oils, Switch oils and insulating oils and Medicinal Liquid Paraffin to U.S.P. and B.P. specifications falling under Serial Number 17 of Part V of the I.T.C. Schedule separate applications should be submitted for each of those items giving full details showing the essentiality and the requirements, the party whom they will supply the oil and the purpose for which these oils will be used, and in the case of imports ex-U.S.A. the justification for their demand giving technical reasons why oils available ex-U.K. are unsuitable for their requirements. General licences will be granted to established importers on the basis of a quota of 100 per cent. of half of best year's imports from dollar area and soft currency licences on the basis of 150 per cent. of half of best year's imports from soft currency area. In addition, soft currency licences will also be granted at 30 per cent. of half of best year's imports from dollar area.

4. Import of lubricating oils falling under Serial No. 20 of Part V of the I.T.C. Schedule.

Separate applications should be submitted for oils having viscosity over 90 seconds (Redwood 1 at 140° F) and oils of viscosities 90 seconds (Redwood 1 at 140° F) and less. Applications for the second category, i.e., for the lighter lubricating oils of viscosities 90 seconds and less must mention the enduse giving quantities against each enduse. In order to give importers a certain amount of flexibility of programme, the licences to be issued for the light viscosity oils will not stipulate any viscosity limit, as there is no objection to importers bringing in some high viscosity oils against these licences, the object being solely to restrict the import of light viscosity oils. The licences to be issued for the other category i.e. lubricating oils with a viscosity over 90 seconds (Redwood 1 at 140° F) will contain a condition that the oils to be imported against the licences should have viscosity over 90 seconds.

General licences will be granted to established importers on the basis of a quota of 100 per cent. of half of best year's imports from dollar area and soft currency licences on the basis of 150 per cent. of half of best year's imports from soft currency area. No. 191-ITC(P.N.)/50.—The following decisions of the Government of India regarding the issue of licences to Actual Users for the import of goods falling under Part I (excluding items licensed by the Steel Import Controller) II, III, IV and V of the Import Trade Control Schedule for the licensing period January-June 1952, are hereby published for general information. In applying for licences in terms of this notification, all the definitions and rules of procedure laid down in the Handbook on Import Trade Control which is being simultaneously published will be applicable unless any special exemption or modification is indicated in this notice itself.

2. The list of items for which licences will be given to Actual Users is shown in Appendix I to this Notice. Applications for articles not covered by Appendix I will not, as a rule, be entertained, unless the licensing authority is satisfied that the requirement is of such a specialised and essential nature that an exception should be made.

3. When applying for licences as Actual Users for any raw materials or consumable stores, applicants should quote the number of import licences obtained by them for those items in 1951 together with the quantities covered by those licences. If no licence was obtained for any item during 1951, the applicant must explain the reasons why it is necessary for him to arrange for his own import in 1952 and why he cannot obtain his requirements in the same manner as in 1951.

4. It is emphasized that all the information called for in the application form prescribed for Actual Users together with the information called for in this notice, must be furnished at the time of applying and failure to do so will render the application liable to be rejected.

5. Licences for raw materials and consumable stores will normally be granted to meet six months' consumption. The licensing authority may, however, make such reduction in this as he may think fit after taking into account the stocks already held by the applicant, the level of indigenous production and the quantum of imports allowed through ordinary trade channels. In the case of spare parts and other non-consumable stores, applications should be for meeting demands which are expected to arise over a period of six months.

6. All applications should be made on or before the 15th April, 1952.

7. Actual Users will be permitted to make one consolidated application for licences covered by the same certificate from Directors of Industries, etc. They will also be permitted to make more than one application for the same item provided each application is to meet a different need and is supported by an independent certificate from the Director of Industries, etc.

8. Actual Users who do not wish to make one consolidated application for all the items constituting their certified requirements, may submit separate applications for one or more items, provided each application is supported by the prescribed certificate and a separate treasury challan for the requisite fee.

9. The attention of Actual Users is particularly invited to the instructions contained in chapter III of the Handbook of Rules & Procedure on Import Trade Control, which indicates the form and manner of application by factories engaged in certain specially assisted industries and who are borne on the list of Development Wing, Ministry of Commerce and Industry, New Delhi.
